Women & Infants

Lifespan

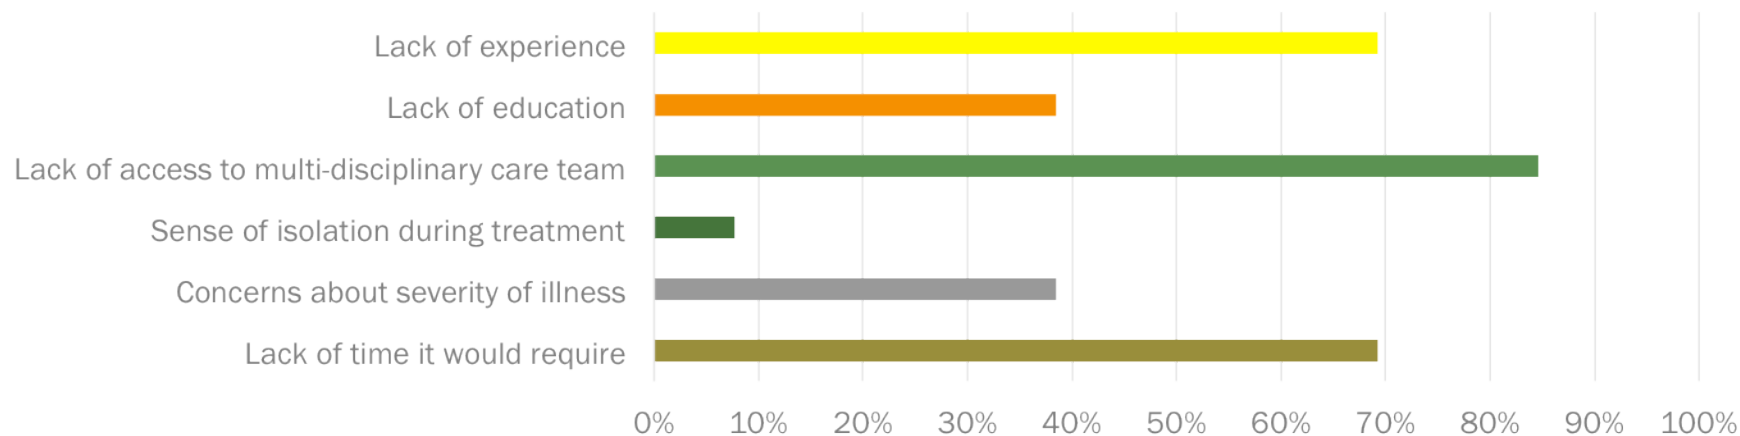

Do you treat patients with eating disorders?

Would you be willing to be listed as an ED resource: 100% No

Survey sent to PCP, GI, OBGYN and Psychiatrist providers. Small response rate

If you don't treat this patient population and would like to, what are your barriers to doing so?

- Greatest barrier is lack of access to multi-disciplinary care team
- Followed by lack of experience and time it would require
